

Message From the Headmaster - March 16

Franklin Christian Academy was informed today that a member of our faculty has tested positive for COVID-19. This individual was last on the Franklin Christian Academy campus on Friday, March 6th and was not symptomatic at that time. The individual was in contact with some of our students during Week Without Walls travel. The families of the students involved have been notified, and the faculty member is quarantined at home.

We will continue to work with the appropriate authorities and will update the FCA community with any additional information as it becomes available to us. We appreciate the continuing efforts of all of our public servants during this time and we encourage all members of our community to follow the guidelines of the Centers for Disease Control and Prevention (CDC) as well as the TN Department of health in the links below as we all deal with this virus.
